

Ballyfermot Training Centre

REL have completed a number of Air Conditioning works, which include the installation and commissioning of Air Conditioning Units, at Ballyfermot Training Centre which provides a wide variety of education courses on campus in Ballyfermot, as part of the City of Dublin Education and Training Board.

Throughout the centre over a four week period, REL installed, commissioned and replaced over 50 indoor and outdoor Air Conditioning Units. REL also upgraded some existing Air Conditioning units with the refurbishment of VRF compressors. Lastly, the work completed by REL also contained the disposal of R22 gas from these units as well.
