

## Our lady Queen of the Apostles NS & Ringsend College

REL Group have recently completed a number of mechanical upgrades in both Our Lady Queen of the Apostles NS in Clondalkin and Ringsend College. There were a number of varied mechanical works completed including installation of boilers, pipework, radiator replacement and the installation of control panels & valves.

### Scope of works:

- Installation of a triple 100kW cascade boiler heating system (Clondalkin) and a 400kW boiler (Ringsend), which includes Pumps & Pressurization Units, Expansion Vessels, Heating Control Valves & Burner Replacement.
- Over 600m of heating LPHW pipework installed.
- Replacement of over 50 Radiators.
- Oil Tank removal & replacement with Natural gas system (Including Natural gas leak detection in plant rooms).
- Installation of heating control panels & valves.
