

# EDUCAMPUS STUDY

BY REL GROUP ENGINEERING LTD

## INTRODUCTION

EduCampus Services was set up in April 2015 by the Higher Education Authority as a subsidiary company of HEAnet CLG. REL Group Engineering Ltd. provided air conditioning and heating turnkey job. Scope of work:  
REMOVAL OF EXISTING FLOOR AC UNITS  
INSTALLATION OF A NEW VRF system with a new Condenser  
INSTALLATION OF A NEW TOUCH SCREEN CENTRAL CONTROLLER

**RAYMOND MCGINLEY,  
ARCHITECT,  
RAYMOND MCGINLEY  
ARCHITECTS**

"The contractor performed really well ... just in time for the cold weather! (well done Kieran and team)"

**STEPHEN WALSH,  
CHARTERED ENGINEER,  
JV TIERNEY**

"There was great team work from all involved and the project went very smoothly."

**PADDY  
NAUGHTON,  
CHIEF  
EXECUTIVE,  
EDUCAMPUS**

"Thank you, and all in JV Tierney and in REL for the completing the installation of the replacement AIR Con system to such high standards. It is fantastic that the work was completed during the 3 week window allocated for the work (just in advance of the really cold spell ) and also that REL reinstated all of the furniture and cleaned the offices to such a high standard. Your efforts are very much appreciated by us all in EduCampus."
