

Global Rail

Irish Rail (Iarnród Éireann), provide passenger and freight rail services across Ireland as well as operating Rosslare Europort. They run Dart, Intercity and Regional rail services which served approximately 42 million passenger journeys in 2016 across a number of stations around the country. Since 2015, REL have been the preferred supplier for mechanical services for Global Rail across rail stations in Ireland. Works have included boiler installs, installation of new air curtains and destratification fans and the servicing and commissioning of both gas & oil boilers located at various stations throughout the country.

Scope of works:

- Mechanical services.
- Boiler Installs.
- Installation of new Air Curtains.
- Installation of Destratification Fans.
- Servicing of Gas Boilers.
- Servicing of Oil Boilers.
